EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Orlando Lopez on 5/4/04.

The application has been amended as follows:

- a. Claims 119-124 have been cancelled.
 - b. Claim 1, line 3 and 4, 'species' has been deleted.
2. The following is an examiner's statement of reasons for allowance:

The claims are allowed for the reason that the cited prior arts do not teach or fairly suggest the combination of the method steps of 1) depositing a continuous film having optical properties and adsorption properties essentially the same as optical properties and adsorption properties of bulk material and 2) analyzing the sample by matrix-less light desorption/ionization mass spectroscopy, after the sample has been applied to the deposited continuous film as claimed by the method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
